HIGH WYCOMBE LEISURE CENTRE

PROJECT SUCCESS STORY

THE BRIEF

High Wycombe recently opened a brand new £25m Sports and Leisure Centre. The 10,750m² complex provides the latest in sporting equipment and offers a diverse range of facilities open to the public. The client needed a heating solution for its large sports hall that would be robust and provide excellent energy efficiency.

OUR SOLUTION

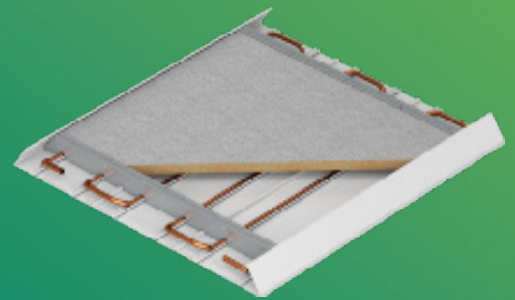

Our HD Radiant Panels are the ideal solution for use in sports halls and large open spaces, as not only can they cover the entire length of the hall (28 metres) but they are also extremely hard-wearing and ball impact tested. Our panels were installed in the Leisure Centre's 12 court sports hall and dance studio.

LOCATION: HIGH WYCOMBE

SECTOR: NEW BUILD, LEISURE

PRODUCTS: HD RADIANT PANELS

KEY FEATURES: HEATING OR COOLING OPTIONS, ENERGY SAVINGS OF UP TO 40%, AVAILABLE IN OVER 200 COLOURS

"MERRIOTT'S RADIANT PANELS WERE THE BEST SOLUTION FOR OUR NEW SPORTS COMPLEX, COVERING THE ENTIRE 28 METRES OF THE HALL."
