CANTON LIBRARY

PROJECT SUCCESS STORY

THE BRIEF

Situated in Cardiff, Canton Library is one of the most popular libraries in the city. With story time places for children, quiet study areas and free-to-use computers it's always full of visitors. The building itself is of old architecture and boasts a large open plan with tall ceilings, therefore high performance radiators were needed to maintain an ambient temperature.

OUR SOLUTION

As a result, 15 of our D70 Profile radiators were specified throughout the library. By choosing the double option and extended 70mm elements, the library benefits from extremely high outputs making this open building a pleasantly warm and comfortable environment for all visitors.

LOCATION: CARDIFF

SECTOR: REFURB, PUBLIC

PRODUCTS: 15 D70 PROFILE RADIATORS

KEY FEATURES: EXCEPTIONAL OUTPUTS, BESPOKE SIZE OPTIONS, AVAILABLE IN OVER 200 RAL COLOURS

"THIS LARGE OPEN PLAN BUILDING REQUIRED HIGH PERFORMANCE RADIATORS TO MAINTAIN AN AMBIENT TEMPERATURE & THE PROFILE HAS DELIVERED THIS."
